Right now, there are about 8M searches per month where you are not contesting your competitors. Look at the keywords, and decide whether it makes sense to counter them.

Keyword Overlap in Your SEO & PPC campaigns

You currently don't have any ads on keywords that you also rank organically for. *This means that you aren't spending any money on ads when you have a search result. However, surprisingly enough, it is sometimes profitable to do so since that ad will probably have a good quality score.*

Traffic Share

Relative to your top 5 competitors, your site gained 28% of the traffic share. During this time seoChat.com has exploded and ripped traffic from seobook.com and webconfs.com.

Domains that Gained or Lost Clicks on your Keywords

This month, Wordstream.com lost 3k clicks after losing position on organic searches that you also rank for. But, perhaps most interesting was the gains made by Baidu.com. That site is not considered a direct competitor, but they gained 23k clicks on your keywords, which is a 412k percent growth on your keywords. They are either doing something right or getting pretty lucky.
