Snorgtees.com: AdWords Advisor Report (beta)

Top Keyword Recommendations

We've sifted through all the ads your competitors have ever bought, **12k** in all, looking for patterns. By digging through your competitors' historical bidding record, we can see which keywords are their most successful.

These charts show the combined coverage of your competitors on the keyword over the last 14 months. Each color represents a single competitor, each column is a month. Graphs going up and to the right mean your competitors are betting more on a keyword over time.

80.4 Potential Clicks/Mo **Great Buy**⁽⁹⁵⁾

The order is mostly based on the strength of the buy rating, but also slightly prioritized by the size of the opportunity in potential clicks. The number in parentheses is a 0-100 scale to help differentiate the strength of a recommendation within a buy rating. Ex: "Great Buy (95)" is better than "Great Buy (93)".

Next, we figure out which keyword match type (phrase, broad, exact, modified broad) your competitors are buying and we filter out any that you already buy. When a keyword is large enough that we think it belongs in its own ad group we dig deeper to discover the best performing ad copy to give you a place to get started.

These are the top **50** keyword recommendations for you to add to your campaign. Combined, these recommendations represent **6k** new clicks per month for your campaign.

offensive t shirts (Phrase Match)

Snorgtees.com: AdWords Advisor Report (beta)

More To Come. We'd Love your Feedback.

Hey,

Thanks for trying out our new Adwords Advisor report. Keep in mind this is an early beta, so nothing is set in stone.

This report should deliver “**actionable advice to improve your Adwords campaign**”. It is designed to save you time while making better decisions that ultimately yield better bottom-line results.

Our goal is to recommend improvements to your campaign that are as good or better than if you paid a consultant to come up with them. We want to back up our advice with **just enough** supporting data that you can decide whether to implement it, but not so much that it overwhelms or slows you down. It's a bit of a balancing act.

We're planning to add **more sections and features** in the coming weeks, so this is just preview of what's to come. But, we wanted show you what we have as soon as possible so that you can **give us your input** while it's still easy to make changes and prioritize what comes next.

This is where we need your help. We need your input to find that balance and to prioritize future sections and features. We've set up a page for you to [Suggest Ideas](#) and [Vote on New Features](#) and [Report Bugs](#).

We've also put together a [short survey](#) for you to report the quality of your experience.

Got more to say? As always, you can send questions or feedback directly to us at support@spyfu.com or hit us up on [Live Chat](#).

Did you love the report? We're dying to hear how it made you day a little better. [Send us a testimonial](#).

Thanks again for giving the report a try. Be sure to check back in the coming weeks as we implement your feedback and add new sections and features.

Cheers,

Mike Roberts, Founder

Psst. Want to share this beta? Internet karma coming your way:  

P.S. - We'll also understand if you want to keep it a secret ;)

P.P.S. - But, what if you could share it *AND* still keep it a secret?
