Keywords Not Ranked On But Should Be

You and your competitors often show up in the same search results -- that's why they are competitors. But, sometimes they are showing up and you are not. Right now, there are about 14k searches per month where you are not contesting your competitors. Look at the keywords, and decide whether it makes sense to counter them.

Keyword Overlap in Your SEO & PPC campaigns

You currently don't have any ads on keywords that you also rank organically for. This means that you aren't spending any money on ads when you have a search result. However, surprisingly enough, it is sometimes profitable to do so since that ad will probably have a good quality score.
